

ACRY-TYTE

Superior Stone Products has added a new adhesive product to compliment our already impressive line of adhesives.

Known as the benchmark for performance and quality, Superior Stone Products introduces this new adhesive to offer a single adhesive solution to fabricators of solid surface, engineered stone and natural stone.

ACRY-TYTE includes the adhesive, catalyst and mixing tip in one convenient tube eliminating the need to pre-mix or pre-color. This ready-to-use tube system saves time and money by reducing mixing time, waste and cleanup.

Utilizing the same advanced technology as our original acrylic adhesives, **ACRY-TYTE** provides unmatched bonding strength and durability for all laminations.

ACRY-TYTE

A superior acrylic adhesive designed to create tight, invisible laminations. Packaged in a standard size tube, the adhesive and catalyst are mixed perfectly every time with the *E-Z TIP* applicator.

ACRY-TYTE

Offers incredibly strong bonding strength and provides perfect color matching for solid surface, engineered stone and natural stone.

ACRY-TYTE

Is fast setting and fast curing which results in more jobs completed in less time. Available in clear or pre-colored to match hundreds of stone colors.
